

Student Management System Compliant with Australian VET Standards

PowerPro Sky is a Cloud based product. This platform frees up your IT infrastructure, enables staff and trainers to work remotely and is a must have for RTOs with multiple branches. A local version of PowerPro is also available at extremely competitive prices. It is suitable for smaller RTOs not requiring online access to the system. Both options include initial training, ongoing ad-hoc support and are indisputable value for money.

PowerPro complies with the following Standards/Requirements:

- AVETMISS 8.0 (NCVER and all States and Territories)
- USI (interface with the USI register)
- AQF (Generate, track and validate Parchment documents)
- Standards for RTOs
- CRICOS (International Students)
- VSL/TCSI (Vet Student Loans)
- RAP/TAMS (Resource Allocation Program for Training)

Pricing 2023

- PowerPro Lite (locally hosted): from \$1,700 per year
- PowerPro Sky: from \$3,000 per year

Student Management System + E-Learning Combo

- PowerPro Sky & Cloud Assess: from \$3,600 per year

Extensions and integrations with other system are available as Plugins. Please use the Price Calculator page or contact us for more information. A reputable real time remote support service and an ever-growing feature rich user interface is what sets PowerPro apart from its competitors.

Continuously improved

PowerPro RTO complies with the different State and Territory funding program requirements (e.g. User Choice, Certificate III Guarantee, CSQ, CTF). Integration with leading edge platforms such as Cloud Assess, Moodle, Xero and MyOB allows your Training data to propagate seamlessly. This platform also supports Non-Accredited Training. Our support team understands and speaks the Training language.
